. . . California Dahlia Seed . . .

HAVE you ever grown dahlias from our Specially Selected California dahlia seed? If not, you are missing one of the most interesting features of dahlia culture. Our special strain of seed is gathered with great care from the newer varieties only, mostly from the very double dahlias, as our long rainless summer makes this possible. All the varieties from which we save our seeds have good stems.

We are constantly receiving testimonials from hundreds of customers telling of the wonderful success they have had with our seed, many having won first prizes with their seedlings.

Our Specially Selected California dahlia seed is offered in the following packets:

- 75 seeds from a General Collection. All varieties from which the seed is gathered are large and have good stems.....\$1.00
 - 75 seeds from famous seed parents—from dahlias that are most generally used for producing new varieties, due to their large size and good stems\$2.50
 - 75 seeds from our most famous prize winners. All newest varieties with every good habit. No better seed can be obtained at any price.....\$5.00
- All dahlia seed NET.

Dahlia seeds should be sown from March 15th to May 15th, preferably in boxes or flats, filled with sandy leaf mold soil. Plant the seed about three-quarters of an inch deep, not too closely—2 or 3 inches apart—and keep in a warm, sunny place. Under no conditions let the soil dry out. Transplant in the open when the weather is free from frost, planting about fifteen to eighteen inches apart. With a little care you will have large bushes and abundant bloom in about ninety days. New varieties are produced in this manner. Discard any undesirable ones, as they bloom.

A Vase of Shudow's Lavender

The exquisite loveliness of these silvery lavender blossoms won the admiration of all; not only adding charm and beauty to our exhibit which won the Gold Medal for Best General Display, but was one of the outstanding features of the entire show. (See page 18 for further description.)

Decorative Dahlias

Decorative Dahlias are large and usually full to the center, with loosely formed, long, flat petals. Many new introductions are remarkably beautiful. Some of the best cut flower varieties are in this class.

★**AIBONITA** (Oh, how beautiful)—This is one of our largest originations. An immense flower of a lavender or violet pink, shading to white, with a rich golden yellow at base of petals. The formation is unusual, owing to the great depth and fullness of the flower. The long graceful stems hold the huge blossoms high above the foliage, producing an extremely showy effect. Have had many reports as to the success of this dahlia throughout the entire country. **1.50.**

ALANNAH—A "Mastick" dahlia. An unusually attractive hybrid decorative, of pale yellow, being so suffused with rose that it has a distinctive and indescribable coloring. This good sized variety is held well above the foliage on slender, upright stems, and is an excellent cut flower. **\$3.00.**

★**AL KORAN**—A beautiful blossom suffused with golden rod and amber. The long petals of this large flower are wavy and the bloom is held high on a long strong stem, which makes it very attractive. **\$3.00.**

★**ARROW OF GOLD**—This most beautiful novelty is a refined blossom of pure gold, deepening in the center and shading to a golden apricot and amber at the outer petals. The immense deep blooms are held erect on long, stiff stems, making it a wonderful variety for cutting and exhibiting. Since introducing this dahlia, we have received such excellent reports that we feel confident in recommending it most highly. **\$2.50.**

See illustration on Page 9.

★**AMUN RA**—Our Gold Medal dahlia is of glorious coloring, and one of the greatest prize winners. This immense decorative of gorgeous shades of copper and orange will be more fully described and illustrated on page 7. **\$1.50.**

BASHFUL GIANT—A gigantic bloom where size is one of the requisites for exhibition. It is also of great merit for its beautiful color—being apricot with golden shadings. Flowers are produced on stout stems, but it is a better garden or exhibition variety than a cut flower. This is an eastern prize winning dahlia. **\$2.00.**

★**BAZAAR**—An extra large fine blossom that is a combination of California Sunset shades. Soft chrome yellow overlaid with red—delicately blended so neither predominates. This Autumn tinted flower, averaging nine inches has a good stem, and is fine for cutting and exhibition purposes. **\$3.00.**

★**BERCEUSE**—Something different, of pure salmon color early in the season, but changing later to salmon suffused with gold. Large flower with good stem. **\$1.00.**

★**BLUE LADY** (One of our 1925 originations)—An extremely large flower of an unusual shade of bluish lavender, where the blue, instead of the pink tints prevail. The petals, shading to white, instead of pink, give this dahlia a decidedly blue cast. This beautiful variety was greatly admired in our garden and always in demand as a cut flower. The fine, large blossoms are held high above a robust bush on long, strong, stiff stems. **\$3.50.**

★**CALIFORNIA SUPERBA**—One of the largest pink dahlias. An immense bloom of a delicate shade of pink, without any blue, shading gradually into a white center. The stem is strong and very good, holding the extremely large flower high above the beautiful foliage. **\$3.50.**

★**CARMENCITA**—This variety is of compact growth, and a very free bloomer, being covered all season long with a mass of bright yellow and red blossoms. The stems are very good, and hold the large flowers well above the low bushes. **\$1.00.**

CAROLYN WINTJENS—Beautiful salmon pink with rose shadings. Very large charming blossom with good stem. Excellent for exhibiting and cutting. **50c.**

★**C. C. MOORE**—A lovely shade of golden apricot. The large flowers are held erect on long, strong stems. A sturdy grower and free bloomer. **\$1.00.**

★**CHAMPAGNE**—This immense novelty is one of the largest dahlias. The coloring is rare—warm autumn shades varying from burnished copper to a dull golden champagne and chamois. The stem is exceptionally long and strong and holds the massive flower absolutely upright high above the tall bushes. This is one of the finest of the California dahlias and should be in every collection of dahlias. **\$3.50.**

★**CHOU**—Pink of the old fashioned rose, heavily shaded with white until the cool fall days when the flower is without shadings. Very deep and large and full centered at all times. The beautiful large flowers are held erect on long stiff stems. **\$2.50.**

Amun Ra—The Egyptian Sun God

"And each is covered with copper and gold, and shall be seen from untold distances, and the land shall be flooded with their rays of light."

(From an ancient Egyptian papyrus)

AMUN RA—Our great Gold Medal Dahlia is still a leader, having again won many prizes at various dahlia shows throughout the entire country. This immense decorative resembling a glorious setting sun, is a mystery in color and unlike any color combination known in dahlias. The outer petals of the mammoth blooms are of gorgeous shades of copper and orange, shading to bronze and amber, and deepening in the large full center, to a rich, dark, reddish bronze. This new metallic coloring appeals to all, as it is a color so generally in demand at the present time. A well known artist gave this description of Amun Ra: "The glint of a topaz that is placed near a bit of old Chinese lacquer, would suggest the tone of Amun Ra. To call it a glorified burnt orange hardly does it justice." The stems are wonderful—erect and stout and hold the immense blossoms well above the strong, vigorous plant. The blossoms keep for days when cut and last indefinitely on the bush. Amun Ra will be in flower long after many of the other dahlias have ceased blooming.

The basket of "Amun Ra" shown above won first prize for best fifty blooms in the 1924 Dahlia Show. This dahlia has never failed to win when shown in competition. As we have an abundant stock, we have been able to reduce the price to within the reach of all. \$1.50.

Decorative Dahlia—Amun Ra

The above Gold Medal Decorative Dahlia is of gorgeous shades of copper and orange, shading to gold and amber, and deepening in the center, to a rich, dark, reddish bronze. An Eastern grower says that Amun Ra is an unusual color, which almost seems as if it has a real light of some kind to make it glow. This dahlia is one of the greatest prize winners and unexcelled as a cut flower. For further description, see opposite page.

Decorative Dahlias

- ★**CONCHITA**—A pink Rookwood without the lavender suffusion. The formation of this large, deep flower is irregular enough to be charming. Stems are long and stiff, held high over plants that grow moderately tall. This dahlia was included in the collection of the Best Twelve California dahlias. \$3.50.
- ★**CONSTANCY**—One of our 1924 originations, and one of the most dependable varieties in our gardens. Its color is a lively rich shade of deep, glowing pink. The flowers are very large, held erect over strong, sturdy bushes, on long, stiff stems. This variety again helped to win another Palace Hotel Cup for Best Collection of Twelve California dahlias, and was also used in the beautiful First-Prize Basket of Pink Dahlias, which is illustrated on page 19. \$2.50.
- DARKEYE**—A large fine flower with a splendid stem, of beautiful white, with a flesh pink tint, and the dark center before the flower is fully developed gives it its name. \$1.00.
- ★**DIXIE**—A lovely flower of salmon suffused with bronze, and one of the best cut flower varieties, having long, stout stems. \$2.00.
- ★**DOLLY VARDEN**—A most artistic blossom of a true pink relieved by a creamy pink center. The irregular formation of the petals, twisting and curling, give it more the appearance of a Hybrid Cactus instead of a Decorative Dahlia. Excellent stems, and one of our best cut flower varieties. \$3.00.
- ★**DR. JAMES PLUNKETT (Our 1925 origination)**—Dark, rich red, each petal heavily outlined with a deeper red, giving it a rich, velvety appearance. The flowers are of good size, with fine long strong stems, making it one of the most useful and satisfactory cut flowers. \$1.00.
- ★**DR. TEVIS**—A beautiful shade of soft salmon rose, suffused with old gold, shading to a golden apricot center. One of the largest grown; flowers nine to eleven inches in diameter; the immense flowers being held erect on fine, long, vigorous stems. 75c.
- ★**DUSKY PRINCESS**—Rich, velvety, dark red shading. Unique big blooms, as the petals have a corded effect. Beautiful flower, with fine, stiff stems. 75c.
- ★**EARLE WILLIAMS**—This very large blossom, of brilliant crimson and white well distributed in the petals, stands erect on long stiff stems. Sometimes a blossom will come crimson, tipped white. \$2.00.
- ★**EL DORADO (One of the finest novelties)**—An immense blossom of vivid gold, deepening in the center. This exceptionally fine dahlia of great substance stands well out of the foliage of a low growing bush, on strong erect stems, making it not only an exhibition variety but an excellent cut flower. We have had fine reports of this dahlia. \$7.50.
- ★**ELLINOR VANDERVEER**—One of our 1925 originations that has been a great success and prize winner throughout the country. An incomparable dahlia of exquisite beauty and great size. The large blossoms of glowing, satiny rose pink are of great depth and substance and are held far above a tall sturdy bush on exceptionally long, stiff stems. There is no surplus leafage and with ordinary disbudding every flower is perfect. This dahlia is said by many to be the best California dahlia ever put on the market, as shown from the excerpts on page 11. \$7.50.
- ★**EMBASSADOR**—Very large blooms of deepest shade of red or maroon, and if grown in the shade are nearly black. Free blooming; stems long and stiff. 50c.
- ★**EVELYN ADAMSON**—The color of this immense and exquisitely charming dahlia is so unusual it is difficult to describe. A rosy fawn pink suffused with gold, growing more beautiful as the blossom matures. This enchanting flower, very large yet refined, is held on a long graceful stem. \$1.50.
- ★**FAITH GARIBALDI**—The Gold Medal Dahlia introduced by Bessie Boston in 1925 and won for her First Prize for best fifty blooms in our recent show. This immense, deep rose decorative is a flower of great substance and of perfect formation. It does not require heavy disbudding for immense blooms. The stem is exceptionally strong and carries the flower high above the foliage. The blossoms last indefinitely on the bush and nearly a week in the house. This dahlia has won many prizes in different parts of the country. \$7.50.

★**MRS. EDNA SPENCER**—This American Cactus is a novelty of a delicate and exquisite shade of lavender or orchid pink. In much demand, as it is a lasting cut flower of unusual color and very beautiful under artificial light. The florists prefer this to any other cactus dahlia, and it is always a prize winner in American cactus competition. The stems are long and stiff. **75c.**

MRS. MARGARET STREDWICK—New exhibition English Cactus. A soft pink, deepening at tips and base. Very large and incurved; the form as perfect as possible. The plants are strong and vigorous. **\$1.50.**

PENNANT—Deep, clear, coral color. Stems very stiff and upright. Incurved type. **\$1.50.**

PIERROT—Lovely deep amber, usually boldly tipped with white. Immense flowers, if disbudded are huge. Sensational exhibition cactus. **50c.**

★**REGENT**—American Cactus type. A clear mauve pink. The many petals are scarcely coarser than the English type. This very beautiful dahlia is also a winner in American Cactus competition. The stems are extra long and stiff. **\$1.50.**

Dahlias marked ★ originated in California.

A partial view of our exhibit which won the Gold Medal—First Prize—for Best General Display at the Tenth Annual Dahlia Show of The Dahlia Society of California, 1925, held at the Palace Hotel, San Francisco. The vari-colored baskets and vases in which the popular autumn-colored dahlias predominated, were effectively blended with the autumn leaves covering the high background of trellis work.

Pompon Dahlias

Pompons are the gems of the dahlia family, producing very small, compact flowers like diminutive show dahlias; they are invaluable for cut flowers owing to their good keeping qualities.

We won the First Prize for the Best Collection of Pompons at the 1925 Dahlia Show of the Dahlia Society of California.

Our Pompons have won many First Prizes for our customers throughout the country.
